9. Analysis on the Board Results / impact found and other details:

In the X Board result showed 100% result. The highest score is 94.8 %

The XII Board result showed 100% result. The students have performed excellently in Commerce subjects.

10. Strengths and Challenges

Strengths

Lockdown period was utilized by the management for maximum improvement of infrastructure, facilities of the school.

The teachers were innovative and became more technologically updated.

The staff became more creative in meeting the demands of the lockdown period.

Even when we have been conducting PTM offline and classes there had not been any single cases of COVID – 19 affecting the school.

The parents appreciated our school abiding by the government rules and regulations and nearly 80% of parents paid the school fees.

The salary was also provided to the staff even after meeting the expenses on the building infrastructures.

Challenges

Parents were not taking the responsibility and not paying the fees. We had to roll out the fees structures as per the government rules.

Coping with the changes during the COVID – 19 with the parents and government was a big challenge.

Getting the fees and meeting the expenses of the school was also a big challenge.

11. Opportunities and scope

The management and staff became capable of managing the crisis.

Highest number of admissions have been done till March and the entrance exams already been conducted and there are admissions still in demand.

Lot of maintenance work completed.

Focussed on planning for future.

Documents were systematically arranged and documented.

All records were updated.
